

Sherborne Developmental Movement

*International Advanced Practitioners Course
organised by the Artevelde University College Ghent, Belgium
and the Belgian Sherborne Association*

11-13 April 2012 — Bruges, Belgium

"Movement experiences are fundamental to the development of all children but are particularly important to children with special needs who often have difficulty in relating to their own bodies and to other people."

Veronica Sherborne, 1990

Advanced Practitioners Course

Aim:

The APC is a course to become aware of the philosophical background of Sherborne Developmental Movement, the connection with Laban and child development.

This Course has been agreed by the International body (ISCO) and participants will receive a Certificate of APC Sherborne after successfully achieving the standard required from the 3-day residential course.

The aim of the course is to give participants a broader and deeper understanding of both the theory and practice of Sherborne Developmental Movement.

SDM has an interprofessional and multidisciplinary approach. The course is suitable for participants who followed the Basic course.

Registration by mail to: anne.vanautryve@arteveldehs.be
